LACK OF UNITY

LACK OF UNITY

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1. In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

Group I: Claim(s) 1-6, 11-13 drawn to a method for detecting changes in gene expression in cells after treatment with a particular compound, classified in Class 435 subclass 6.

Group II: Claim(s) 7-10 drawn to a gene, recombinant constructs thereof and a protein encoded thereby Claims 4-6, classified in Class 536, subclass 23.1; Class 435, subclass 23.1 and Class 530, subclass 350+.

Group III: Claim(s) 14 drawn to compound that alters the expression level of a particular gene, classified in any of Class 536, subclass 23.1; and Class 530, subclasses 300 and 350+.

2. The inventions listed as Groups I-V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical feature(s).

The claims as drawn are related to each other because of the gene whose expression level is varied in cells after treatment with a particular compound. However, since said gene as claimed was known - see, for example, Banker et al. [US Patent No. 5,643,730(1997)] - the claims are no longer linked by a special technical feature, because, by definition, the special technical feature must distinguish over the prior art. Without the special technical feature the claims lack unity.

- 3.. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named

inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(h).
